1. SMEDDUM has advised that there were three contacts during November with their Ukrainian party, but they were limited to the exchange of recognition signals and did not produce any information. From these messages, it is assumed that the group is still on the move. The dates of the transmissions were November 2, 26, and 30.

2. On 3 December, Broadway received the first W/T message from the group of couriers sent in overland in September. This also was only a recognition signal and was devoid of intelligence interest.

3. The above information is of course available to ☐ here. However, it is being submitted for the record at Headquarters.
